Desk-Top Adapters

ENG Electric Company manufactures over 130 safety agency approved "linear" desk-top (indirect plug-in) adapters. For "switching" desktops, please go to our [switching supply page](#). All units are produced in our ENG Electric ISO 9002 certified factory.

North American

Input AC Voltage = 120 Volts 60Hz

UL and cUL approved

Standard#s UL1310, and CSA C22.2 #223

File# E140898

Listed below are catalog "linear" desktop units currently available with UL and cUL approvals. All units come with a 6 ft. long input cord terminated with a molded-on parallel North American 2-blade input plug rated at 15A, 125VAC **and** a 6 ft. long output cord terminated with an [output plug](#).

The first column shows the output voltage in either **AC** or **DC** and the second column shows the range of output currents (in milliAmps).

Output Volts: AC or DC	Available Current Range
4Volts AC	900-1000mA
4Volts DC	900-1000mA
5Volts DC	600-900mA
5.2Volts DC	650mA
6Volts AC	800-1300mA
6Volts DC	500-900mA
7Volts DC	800mA
7.5Volts AC	700-1100mA
7.5Volts DC	700-800mA
9Volts AC	500-1000mA
9Volts DC	500-700mA
10Volts AC	450-900mA
10Volts DC	450-600mA
12Volts AC	400-700mA
12Volts DC	400-500mA

14Volts AC	300-600mA
14Volts DC	300-400mA
15Volts AC	300-600mA
15Volts DC	300-400mA
16Volts AC	300-500mA
18Volts AC	250-450mA
18Volts DC	250-350mA
21Volts AC	200-350mA
21Volts DC	200-300mA
24Volts AC	200-300mA
24Volts DC	200-250mA

Please contact ENG Electric Company or your local Representative for pricing on these desktop adapters. Part numbers are in the following format: D48A-4-1000

- » **D** prefix signifies "desk-top"
- » **48** gives the case size
- » **A** (if present) indicates AC output
- » **-4-** is the output voltage
- » **-1000** gives the output current in milliAmps

Thank you.
